

**City of Statesville**  
Iredell County, NC  
Population: 28,500

## OBJECTIVES

- Deploy video surveillance in higher crime areas using city utility poles

## HOW IT STARTED

The challenge for Statesville Police Department was the inability to see the streets when crime was occurring. They needed a system that would give them more eyes on the streets and 24 hour monitoring. The Police department partnered with us to deploy Verkada cameras using AT&T FirstNet® modems on city light poles in various areas of the city.

## HOW ITS GOING

Partnering with FirstNet® allowed quick connectivity, producing live video almost instantaneously once each camera was provided with power. Since installing this year, Statesville PD has been able to stop crime and detain multiple offenders. Verkada's Command platform gives dispatchers eyes in the field, helping them coordinate with officers before and during response calls.

## Challenges

- PD needed 24-hour surveillance in the city's highest crime areas
- Use the city owned light poles to install and power cameras and modems

## Solutions

- AT&T FirstNet®
- Verkada Cameras
